

Heritage
Beaufort Sixty
Quality

If you own a larger horse, such as the Hannoverian, Trakehner or large Dutch breeds, you will recognise the difficulty of finding a suitably sized trailer.

The Beaufort Sixty is an extra large trailer, specially designed to transport two horses each weighing in excess of 700 kg, and standing 16.3hh and higher.

Larger horses are often uncomfortable in a standard trailer. The Beaufort Sixty has been specially designed to allow each horse to stand with its rear legs as far apart as possible, increasing your horses' comfort and safety.

Additional stylish features on the Beaufort Sixty include stylised rubber ramp facings, to reduce slippage, and twin ramp assisters on the rear ramp, making ramp handling light and quick.

Large opening side windows increase light and visibility for your horses and side vents improve their comfort on the move.
